ABOUT US

IDNINE Contracting Co. is a design and construction company based in Riyadh Kingdom of Saudi Arabia. Engaging in interior design for fit-outs. Transforming the design industry into the most innovative and modern approach.

IDNINE's creativity takes design into new level. Not only in aesthetics but also executing the plans and design accurately in actual construction. Materials are carefully selected that fits in clients vision. We also have a personalized webpage created for our valued clients wherein they can customize some aspects of the design. To ensure customer satisfaction.

“Our mission is to consistently deliver high-quality finish in a cost-effective and time saving manner.”

WE ENSURE

All materials used are available provided by our trusted suppliers all around the kingdom.

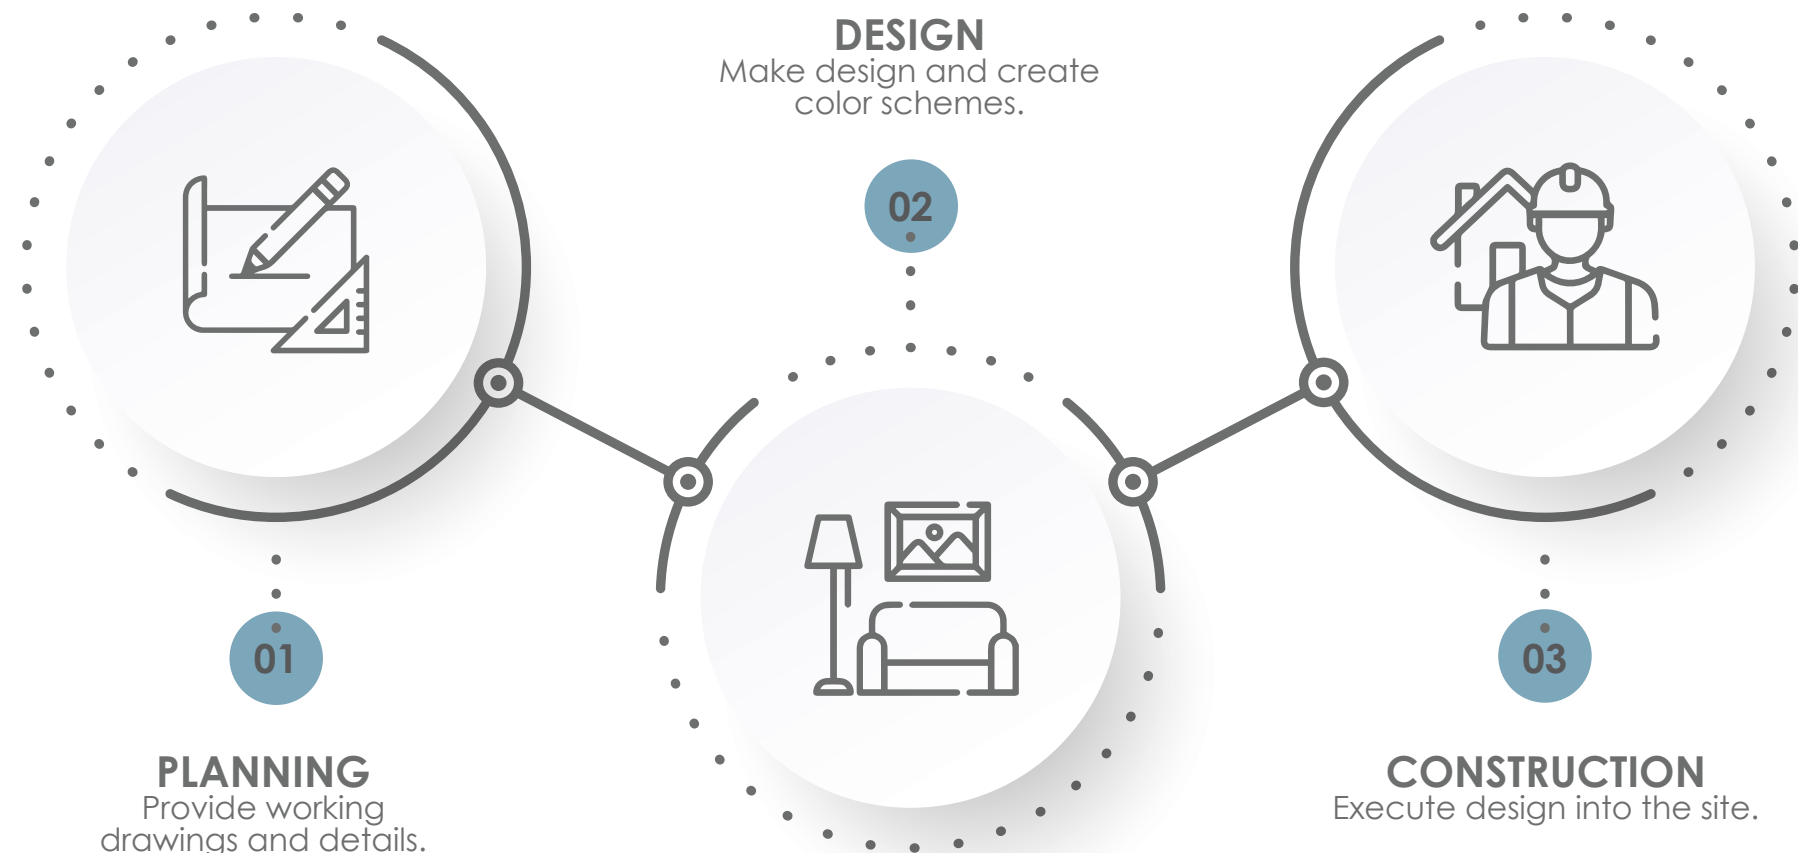

SERVICES

What we offer

IDNINE Contracting Co. provides wide variety of choices for interior design materials. From the design process, we make sure to use the best fit for a certain project in order to deliver a high quality result. We are confident that our designs are high quality. Well thought of providing basic, standard and premium packages.

IDNINE professional team supports your project from concept to completion. Together we discuss your business, your goals and your desires.

MISSION & VISION

A brief about ID Nine

Our vision is to be a leading contracting company in the field of engineering, construction, design and project management, while implementing projects and designs with international standards, and gaining customer satisfaction. Also, constantly providing innovative building solutions and designs to meet customer requirements, using the latest advanced technologies.

ID9 Contracting's management philosophy is based on the recruitment and development of high-performance and professional people, to provide the best services to clients. Part of attracting these unique individuals will be building a culture that promotes both exclusivity and bias for the business. This success, in turn, will enable ID9 Contracting to provide its employees with rewards and benefits, which are essential elements in helping us maintain our leading position in the local and global market.

WHAT WE STAND FOR

Embracing an innovative industry, go with the flow in the developing community as technology evolves.

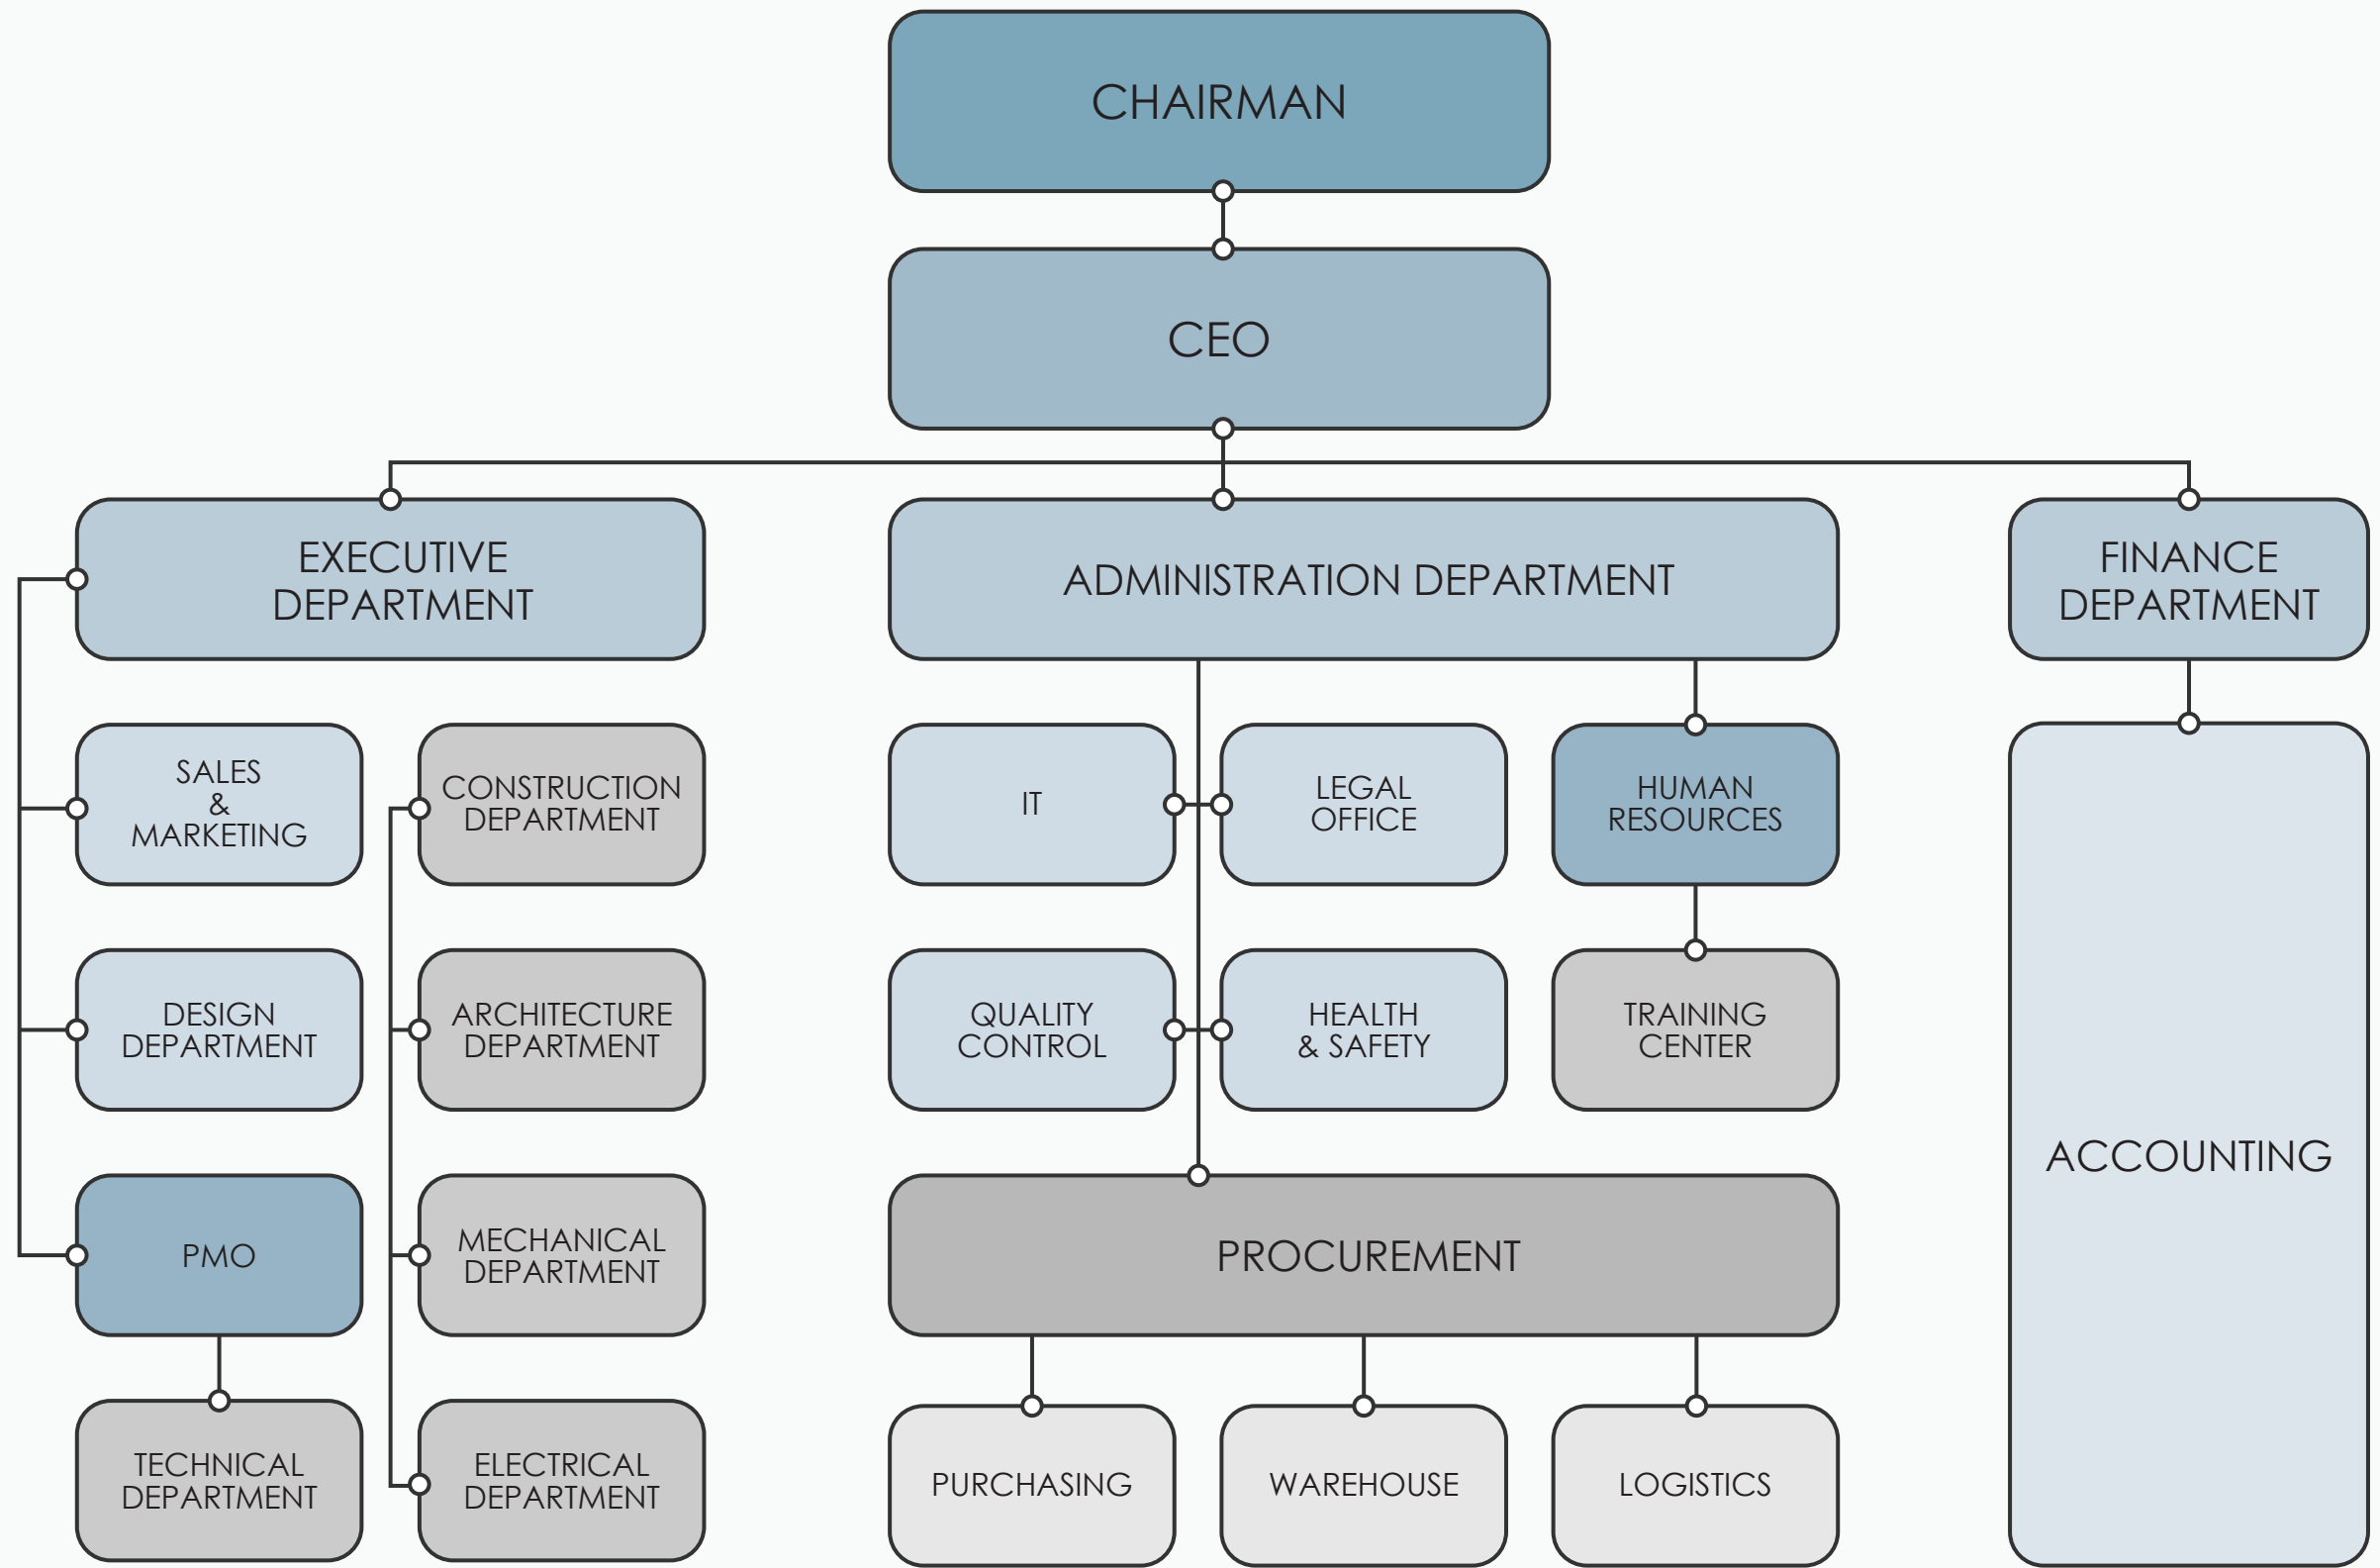

Improving the quality of work and delivering a good collaborative design & plan.

Encouraging continuous learning and self improvement, allowing us to tap into our full potential as design & construction company.

ORGANIZATION CHART

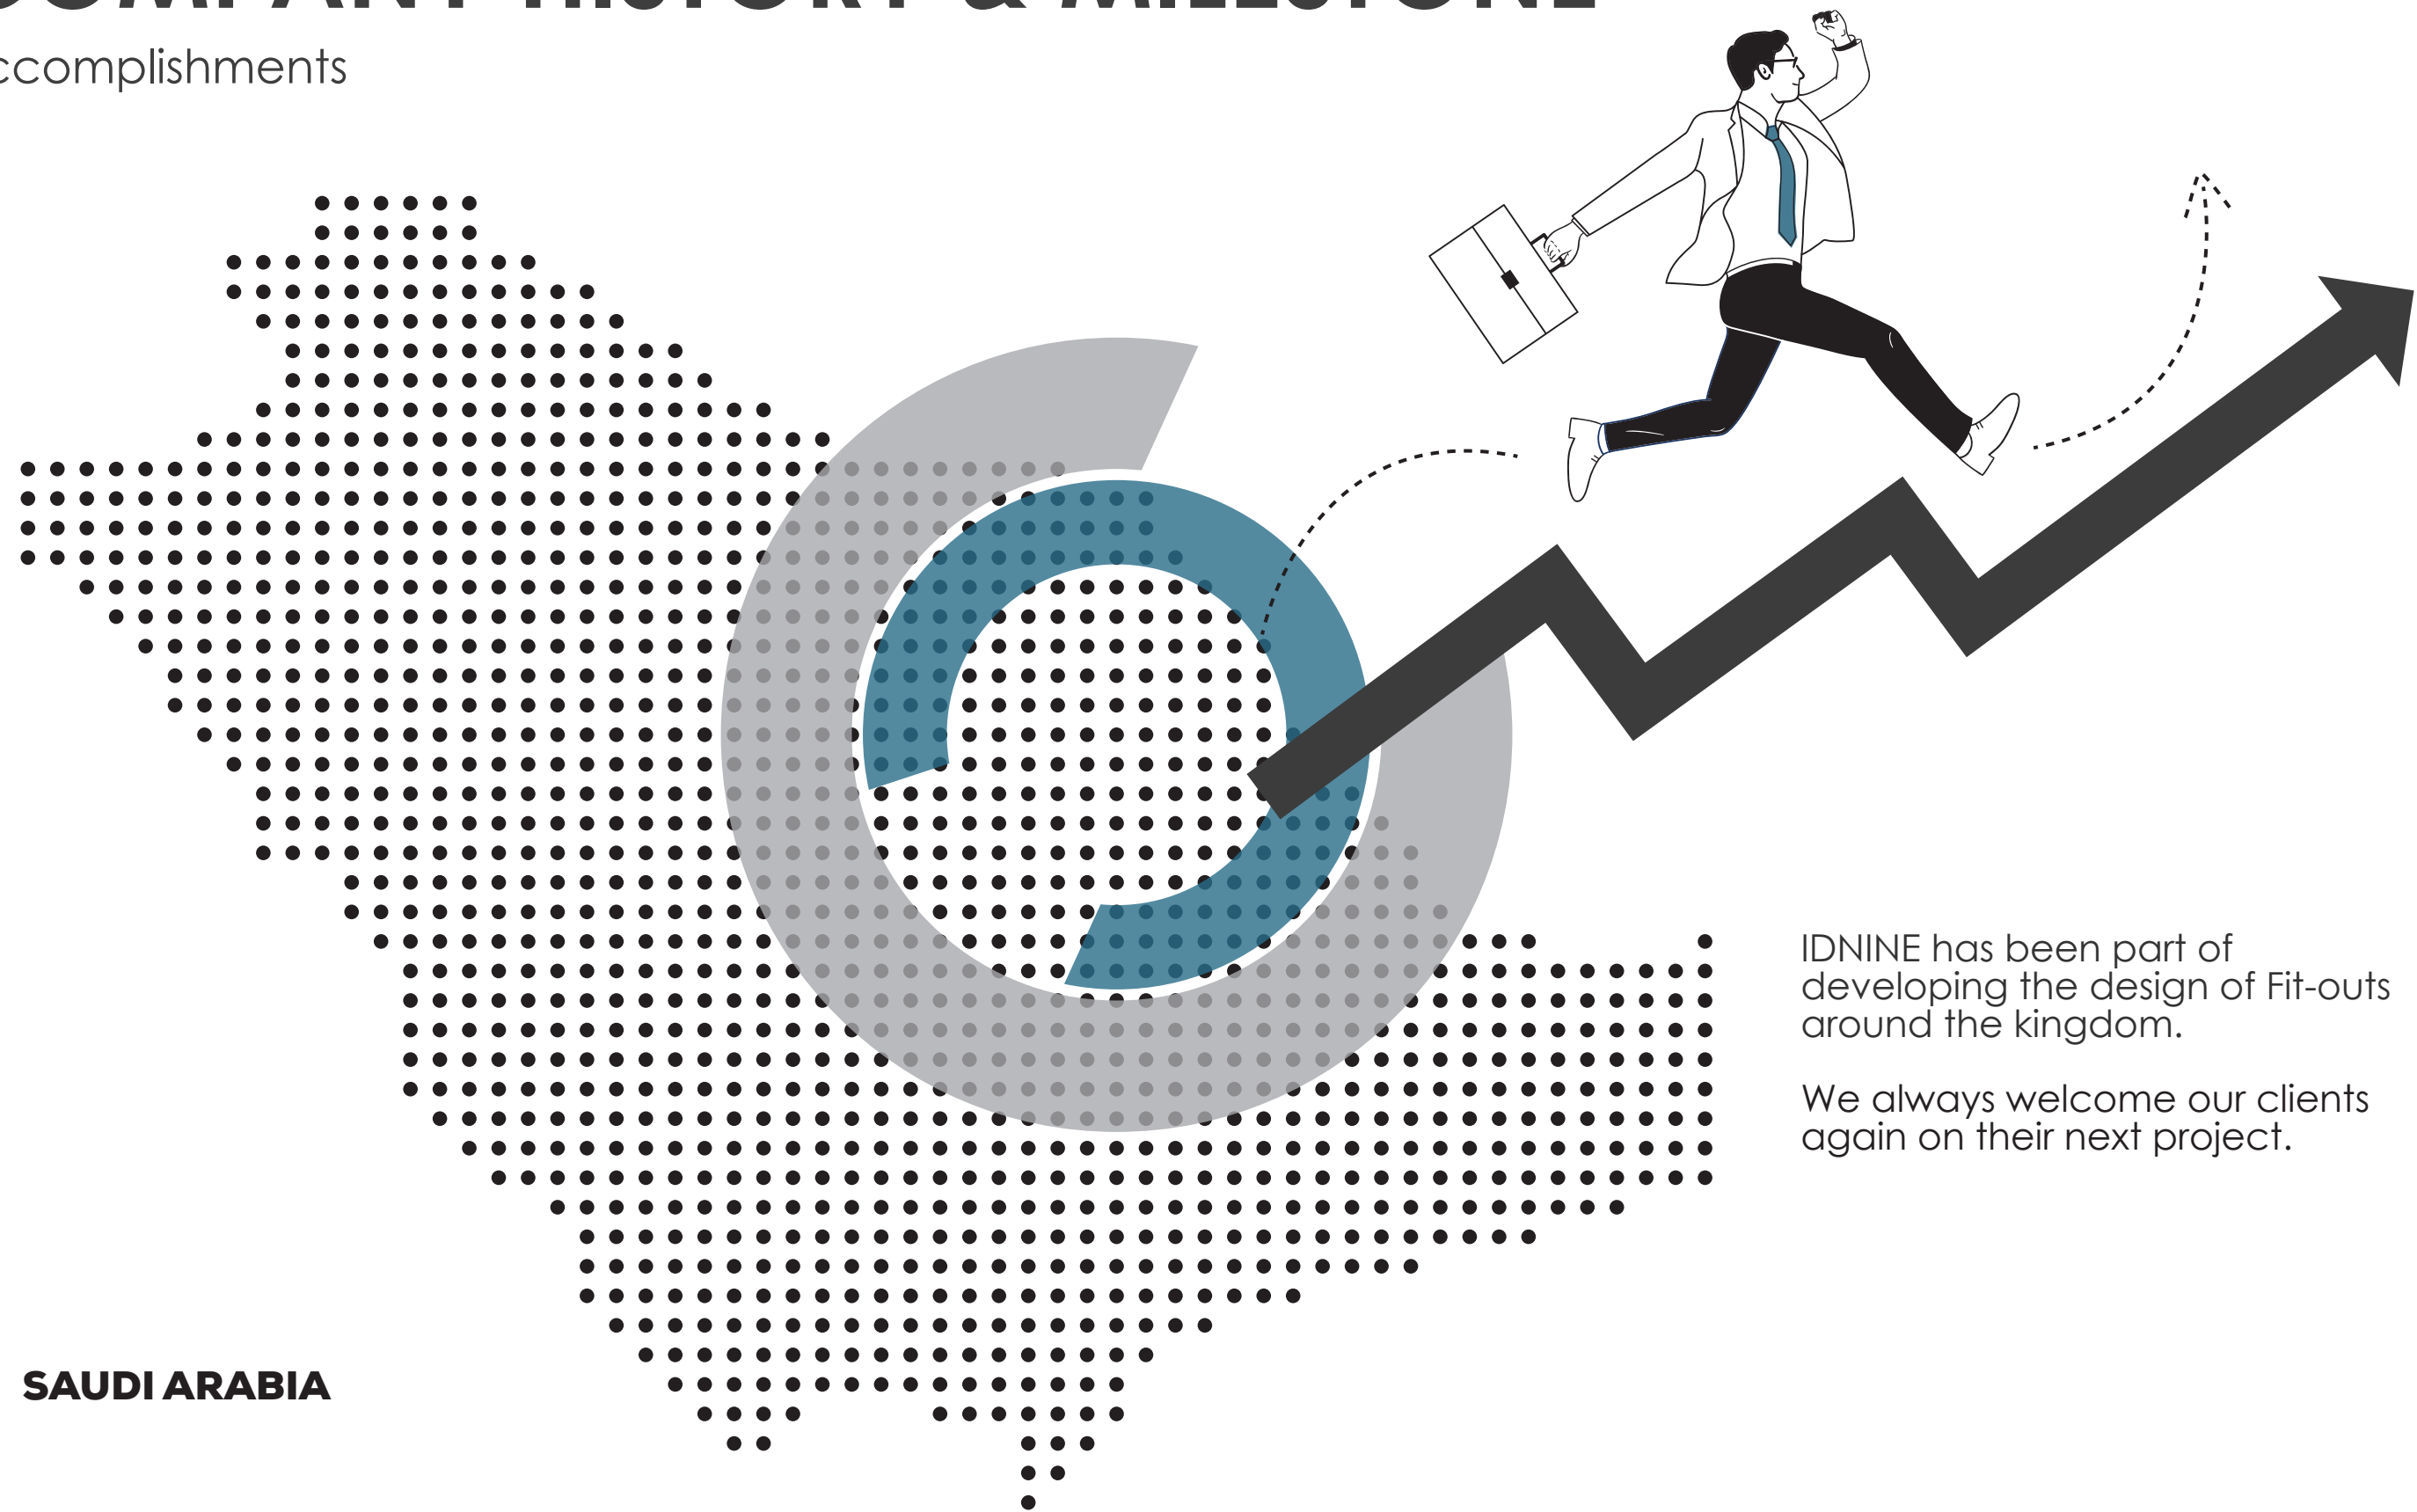

Company management structure
